

LinkStrip-LED

Linear LED Lighting With Integrated Connecting System

Hera's LinkStrip-LED is the ideal lighting solution for showcases, displays or under cabinets. It uses the latest generation 1 W high output diodes. The integrated connecting system makes it simple to create continuous lines of LED lighting. The 12" long LED strips can be connected either directly, or, using the optional connecting cables, spaced apart.

Product-Features

- Anodized aluminum housing with plexiglas cover
- Extremely small dimensions: length: 12", width, 1 1/8", height: 1/4"
- High, even light output
- Integrated connecting system
- Ready to connect to 350 mA constant current power supply
- Available with cool white or warm white LEDs
- Optional connecting cables available in 6", 12" and 36" lengths
- To be used with 350 mA constant current DC converter
- Dimmable with available accessories
