

# RCPSDIM

Part No. RCPSDIM/V2

## Product Description

### Remote Control Dimmer for LED Light Fixtures

A remote-controlled dimming adapter allows true energy savings when dimming. Connects to the output of the 24 Vdc Constant Voltage Driver to allow expanded plug and play functionality for lighting control. For ease of installation and reduced cabling, the RCPSDIM uses a wireless controller. This allows the lighting to be adjusted from anywhere in the room.

## Product Features

- Allows wireless dimming of 24 Vdc LEDs
- Connects to the output of PS24V driver
- Can supply up to 72 W of LEDs
- Dimming range: 0 – 100%
- Quickset buttons for 10 % or 100 % level
- Remote distance up to 50 ft
- Remote requires (1) CR2032 battery. Not included
- No interference with multiple remote systems
- Increased load capacity
- Programmable remote
- Can operate multiple receivers
